TAJSO

Fuel. Force. Foundation.

COMPANY **PROFILE**

2026

ABOUT US

Fuelling movement across East and Central Africa.

Tajso Holdings Limited is a Kenyan energy and infrastructure company supplying quality petroleum products to government, institutional, commercial and industrial clients. From offices in Kisumu and Nairobi, we pair dependable supply with logistics that reach across the region.

OUR MISSION

To supply quality petroleum products reliably and efficiently to clients across East and Central Africa, supporting their operations with professional service and regulatory compliance.

OUR VISION

To be the most trusted energy partner in East and Central Africa, known for integrity and regional reach.

OUR VALUES

Three principles behind every litre we supply.

01 Integrity

We take responsibility for what we supply. Clients deal with us directly and know who is accountable. We meet the standards expected of us and stand behind every delivery.

02 Reliability

We supply the right product, in the right quantity, on the agreed schedule. Our role is to keep fuel moving for fleets, institutions and operators across the region, even when conditions are challenging.

03 Partnership

We build relationships for the long term. We communicate clearly, respond when requirements change, and shape our service around the operational needs of government, institutional and commercial clients.

Fuel. Force. Foundation.

Fuel to power progress. Force to deliver it. A foundation clients can count on.

This is how we earn trust, one delivery at a time.

OUR FOOTPRINT

Five countries. One supply corridor.

Operating from Kisumu and Nairobi, we supply petroleum products through the Port of Mombasa to clients across the region.

5
COUNTRIES
Cross-border supply

COUNTRIES SERVED

1. Kenya
2. Uganda
3. Tanzania
4. South Sudan
5. DR Congo

OUR PRODUCTS

Fuels that keep operations moving.

PMS

Premium Motor Spirit (Petrol)

For vehicle fleets, institutions and commercial users.

AGO

Automotive Gas Oil (Diesel)

For trucks, generators, plant and heavy equipment.

LPG

Liquefied Petroleum Gas

For domestic, catering and industrial use.

JET

Aviation Fuel (Jet Fuel)

For aviation operators and institutional clients.

WHY TAJSO

A supply partner you can rely on.

01

Structured Supply Process

Orders are confirmed, scheduled and documented. Product moves from source to your site with minimal disruption.

02

Single Point of Accountability

One team remains responsible for your supply from order confirmation through to final delivery and handover.

03

Regional Logistics Capability

We manage the movement of fuel from Mombasa into Kenya and neighbouring markets. This includes the documentation required for cross-border transit.

04

Responsive Issue Resolution

Changes in volume, timing or route are addressed promptly. Clear communication is maintained throughout.

05

Complete Delivery Documentation

Each consignment is accompanied by the records required for receipt, verification and internal accounting.

06

Consistent Service Standard

The same level of planning, communication and follow-through is applied to both routine and time-sensitive orders.

Health, Safety, Environment and Quality

The health and safety of our staff, partners, neighbours and customers, together with the protection of the environment, are central to how Tajso operates.

Our HSEQ commitment is to:

- Apply recognised industry practices across the supply chain, from storage to delivery
- Promote a safety culture in every part of the business
- Ensure our products and operations meet applicable regulations and quality standards

We continue to strengthen these practices because safe and consistent supply is what our clients expect.

Logistics

From the Port of Mombasa into the heart of the region, this is how we move your fuel, with clear communication at every stage.

1

Order and sourcing

We confirm your order, agree the schedule and secure the right product in the quantity you need.

2

Loading and dispatch

Your consignment is loaded and dispatched on the route and timeline agreed with you.

3

Transit and documentation

Fuel travels safely to its destination, with all cross-border documentation prepared and managed for you.

4

Delivery and confirmation

Your fuel arrives at your site and is formally handed over, with delivery confirmed to you.

OUR ASSETS

Built to deliver, safely.

Our purpose built fuel bowsers keep product moving to clients across the region, carrying the safety features this work demands.

SAFETY AND SERVICE FEATURES

- Clear hazard and flammable-liquid labelling
- High-visibility reflective rear markers
- On-board fire extinguisher
- Access ladder and side guard rails
- Dedicated delivery boxes
